February, 28	-drafted temperature column to the file media storage -drafted image to the list view of media storage -assisted in outreach program of SJCDRRMO	8
By including capabilities for sorting, multiple deletion, and image preview, you improved the storage of media files. By fixing problems with buttons, checkboxes, and errors, debugging and system testing enhanced functionality. You helped with system evaluation, documentation, and feedback-driven changes. Additionally improved were the vehicle tracking interface and resume design. You also took part in outreach initiatives, which gave you experience working as a team and engaging the community.
